NOMINATION FOR BOARD OF DIRECTORS MEMBERS

Please explain your proposal hereby:

Please accept my application for the office of President.

I promise to uphold the established principles, to build upon and lead beyond the foundation that exists today, expand the impact and reach for those we endeavour to serve, continue to grow and expand the world wide connections of elite training centers and help to drive a higher return on investment (ROI) for all that are participating.

The opportunity to maximize our investment of time, resources and funding is at an important cross road for the future of the ASPC. The process for transitioning our work so that it drives improved operating capability is yet to be fully matured. We can do this by refining our priorities, energy, and focus so that the benefit of membership ultimately leads to enhanced skill sets which improve athlete performance, stronger individual organizational capability and positions the Association as a valuable resource within the Olympic movement.

Thank you for your consideration.
Mike
