

ASPC Update

Spring 2013

MIKE'S MESSAGE

Fellow ASPC members,

In the business of High Performance Sport Training Centers, no other organization exists to help bring you the best practices from the world's top High Performance Centers other than the ASPC. During our annual Forum that will take place this August, we can all come together as leaders of these Centers to share our experience and stories to help make the training and preparation of our athletes and our team of professionals better. Today I ask you to register for one of the 110 slots available for our elite Forum. Please do not miss out. This Association exists because of the willingness of us all to improve ourselves and to share in the fellowship of Sport. Please help us make this Forum one of the best experiences. Visit your Association's web site and register today.

In our newsletter this spring, also note that we are looking for a future host for the ASPC Forum and we are providing you the opportunity to get even more involved by running for an officer position within your Association. Your involvement is key to our success.

See you all soon in Rio.

Sincerely,
Mike English, President, ASPC

RIO DE JANEIRO, BRAZIL

TUESDAY, AUGUST 27 - FRIDAY, AUGUST 30, 2013

The Association of Sport Performance Centers (ASPC) will hold, in partnership with the Brazilian Olympic Committee (COB) and the Rio de Janeiro State Government, the VIII International Forum on Elite Sports at the COB headquarters in Rio de Janeiro from August 27-30.

The purpose of the event is to share and exchange knowledge and experiences in relation to high performance sport and we are thrilled to have this conference happen in the South American continent for the first time.

The Rio de Janeiro state is located in the Southeastern region of Brazil. With open arms to the world, Rio de Janeiro is a symbol of development, sports, ecotourism, culture and entertainment providing a very active life to the population, tourists and foreign guests.

The VIII Forum is organized by the Olympic Training Center in Rio de Janeiro. The Olympic Training Center will also be one of the venues for the 2016 Olympic Games. Ground was broken on the Olympic Training Center facility in 2009 and it is scheduled to have four indoor arenas in the Barra da Tijuca neighborhood of Rio de Janeiro. Beyond hosting the VIII Forum, the OTC will host a variety of events for the 2016 Summer Olympics and the 2016 Summer Paralympics including Olympic basketball games, Paralympic wheelchair basketball and wheelchair rugby games, Olympic judo and taekwondo events as well as Paralympic judo and boccia events. Olympic wrestling, Paralympic volleyball, Olympic handball matches and the Paralympic goalball matches are all likely to take place at the OTC facility as well. Additionally, the OTC has infrastructure to provide services in nutrition, physiotherapy & sports medicine, athlete career support, physiological, biomechanical, psychological and biochemical assessment along with lecture halls & seminar rooms.

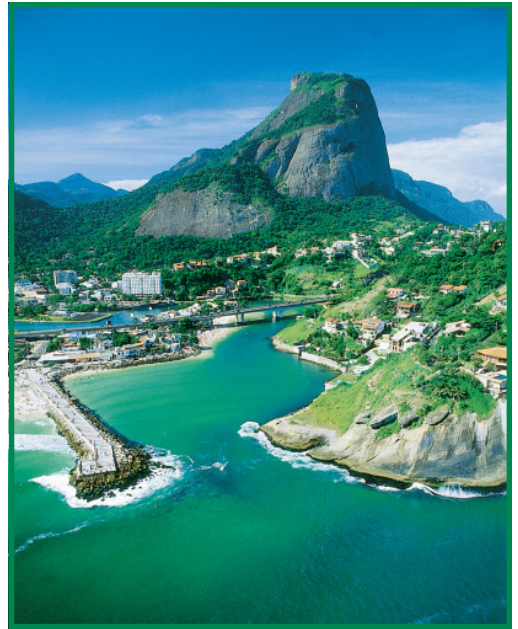

The future host city for the 2016 Olympic and Paralympic Games is pleased to receive the participants of the VIII International Forum on Elite Sports.

Guest speakers in the agenda include:
