Peace Games are a Major Sporting Event that Combines Authenticity in Values and Virtues with Spectacle in Competitions and Events. They are Designed Based on the Following Principles:

|   |   |   |
|---|---|---|
| <b>Authenticity</b><br>Events and competitions embody the values and virtues fostering peace.<br><br>Authenticity and credibility must never be compromised.  | <b>Integration</b><br>Sports in all its facets are combined with music, arts, and other elements of culture.<br><br>Synergies are sought with Delphi Games, the Music World Cup and E-Sports, but also Invictus Games and Military Games. | <b>Tradition &amp; Innovation</b><br>Sports has been demonstrating traditional strengths in international understanding that will be built upon.<br><br>As a complement, innovative formats and synergies will be developed adhering to current Zeitgeist and future opportunities. |
| <b>Inclusion</b><br>Events and competitions are designed with special focus on inclusion – bringing together cultures and adversaries, disabilities and abilities, minorities and majorities.<br><br>A focus on performance will be complemented by an outreach to integrate and inspire all interested general population. | <b>Spectacle</b><br>Core activities will be demanding up to the edges of human potential; producing suspense and entertainment and hence visibility, and fostering a strive to partake and perform.                                       | <b>Sustainability</b><br>Peace Games will serve as overarching crystallization point for all sustainability considerations including ecologic, social, and cultural concerns.   |
